Meet David & Heather of Zen Rose Garden

Lifetime students of Spiritual Healing, David and Heather met in 2008 and formed Zen Rose Garden. Blending their unique combination of Intuitive Gifts and Healing Techniques, they dedicate their service together to the healing, empowerment and self-realization of their individual clients.

Heather Kim Rodriguez

Heather is a trained Spiritualist Medium, Clairvoyant, Reiki Master, CranioSacral Therapist, Life Coach, Hypnotherapist, Channel and Healing Medium. Struck with a vocal disorder after a devastating trauma, she was told by medical experts it was incurable, but instead chose to pursue alternative methods on a quest for a cure. This journey of a lifetime led to the total healing of her voice and opened her abilities as a Healing Medium. Now, a lifetime scholar and expert in the field of Metaphysics, Mediumship, Comparative Religion, Dream Interpretation, Shamanism and Mythology, she is passionate about helping others understand and control their gifts. She is also the author of *Goddess Unchained*, and is pursuing Doctoral Studies in Natural Healing, Comparative Religion & Transpersonal Psychology.

David Caren

David is a Master Hypnotherapist, Past Life Regression Therapist, Reiki Master, CranioSacral Therapist, Life Coach, Clairsentient, Conscious Channel and Healing Medium. As a teen, David experienced a Near-Death Experience which served as a Shamanic Opening, accelerating his gifts as a Medium. As a result of his journey, David is gifted in guiding those who struggle through emotional blocks to find, resolve and release deep levels of fear hidden in the Subconscious. He is currently working on a book on Primal Brain Response in human behavior based on his methods to overcome primitive urges when it is contrary to one's higher desires. He is also pursuing Doctoral work in Metaphysics and Psychology.

"I've been seeing David & Heather for a year & they never cease to amaze me. They immediately cut through whatever issues I've presented to them & find & help me address & work through whatever the cause of whatever result (issue) I'm experiencing. They are awesome healers & individuals & an hour with them is worth every cent (and a lot more)."

- J. Sena, Las Vegas, NV

"I have seen a lot of practitioners & David & Heather are the real deal. The way they work in partnership is quite an extraordinary experience. They are also quite funny, which I believe is a sign of enlightenment. :) I highly recommend them."

ZEN ROSE GARDEN

TRANSFORMATIONAL JOURNEY

Our work at Zen Rose Garden is to help you achieve your deepest most long lasting transformation spiritually, mentally, emotionally and physically. Over the course of your time with us we customize your transformational journey to help you connect deeper to your inner guidance and call into being your most desired life.

When seeking alternative means to heal areas of life that have been resistant to healing and change, one must come prepared for the consistent work of showing up for the process. In our modern world we have become accustomed to the “quick fix”; and while life-changing epiphanies and amazing healing work often happen during sessions, real transformation requires a commitment of personal responsibility and the persistence of working for true change.

That being said, our commitment to you is to guide you to discover, un-earth and process through mental, emotional, physical and spiritual blocks and fears standing between you and your true happiness. During your first consultation session, we assess where you would like to be in life, what your current frustrations are, pinpoint blocks and help you create a plan of action.

At Zen Rose Garden we uniquely blend modalities to accelerate healing, making sessions relaxing, energizing or intense as old blocks, emotions, stress and stuck energy are released. To assist in your specific phase of healing and growth, we offer the benefit of working with the same team of skilled practitioners for ongoing support and familiarity. Studies show that shifts occur more rapidly when two or more energy healers work as a team as skills combine in a synergistic way making available more tools than there would be from just one practitioner.

Below is a typical progression of healing and growth with Zen Rose Garden over time:

Phase One: Clearing & Assessing Your Energy

During this phase which we return to as needed during your transformational journey, we help you take stock of where you are, clear what is needed and see how far you have come to this point.

Phase Two: Connecting To Inner Guidance

During this phase we assist you to connect to your inner guidance in whatever way is right for you. That might be through your Higher Self, your spirit guides or guardians or through your deep subconscious.

Phase Three: Skills & Tools For Guidance

While learning skills and tools for guidance, we continue helping you clear emotional and mental blocks to clarity. The end result is the ability to see your path ahead with more clarity and trust.

Phase Four: Spiritual & Personal Identity

By this time your spiritual identity may be emerging and you may decide to pursue more in-depth training with us to develop a more advanced and personalized spiritual skillset.

Phase Five: Giving Back & Looking Forward

As you begin to flourish in your new energy, you may be ready to find ways to give back to the community in which you live by volunteering, pursuing a career in the helping or healing arts or by actively pursuing your dream. We continue to assist you as needed for guidance as you begin to integrate what you have learned along your healing journey for the greater good of humankind.

Soul Retrieval/Shamanic Healing Techniques used for thousands of years by traditional healers such as Soul Retrieval, Shadow Work or Re-Integrating Dissociated Complexes as in Psychotherapy; are rooted in Shamanism & Modern Psychology. When there is a traumatic event one does not have the emotional capacity to cope with, the Psyche stores that "Soul Fragment" outside the normal stream of consciousness so one can function. Later, it may manifest as unexplained sadness or feeling that something is missing letting you know that the fragment is ready to heal & re-integrate.

With this service you get an Aura Drawing and an in-depth reading of what your energy is doing as well as a clearing. Heather has also developed a system of Chakra Cycles that will allow a deeper understanding of where you are in your particular life cycle.
